

Poudre Valley Rural Electric Association
2022 Interconnection Reporting
4 CCR 723-3
Interconnection Procedures and Standards
3853. General Interconnection Procedures. (q) Reporting.

Pre-Application Reports

Total number of reports requested	Total number of reports in process	Total number of reports issued	Total number of requests withdrawn	Processing time: receipt of request to issuance (days)			Number of reports processed in more than 20 days
				maximum	mean	median	
1	0	0	1	N/A	N/A	N/A	0

Interconnection Applications

	Primary Fuel			System size			
	Solar	Wind	Biogas	<25 kW	25 kW - 1 MW	1 MW - 5 MW	>5 MW
Total number received	506	0	0	504	1	1	0

Level 1	Processing time: receipt of application to interconnection agreement (days)			
	Total number of applications processed	Maximum	Mean	Median
	504	10	7	8

Level 2	Processing time: receipt of application to interconnection agreement (days)				
	Total number of applications that passed screens	Total number of applications that failed screens	Maximum	Mean	Median
	1	1	25	22	22

Supplemental review	Processing time: receipt of application to interconnection agreement (days)				
	Total number of applications that passed screens	Total number of applications that failed screens	Maximum	Mean	Median
	0	0	N/A	N/A	N/A

Level 3	Processing time: receipt of application to interconnection agreement (days)				
	System Impact Studies	Total number of SIS completed	Maximum	Mean	Median
	0	0	N/A	N/A	N/A
